We power potential™

Activate genetic pathways to better health

ASEA® Redox Cell Signaling Supplement changes everything and, with 32 million bottles sold worldwide, it's certainly changing the way people across the globe can reach their full potential through better health and well-being.*

Help your body's natural process for cell communication, protection, and balance with active redox signaling molecules. Then, discover what you can do with your life when your body is powered to its fullest potential.

A solid foundation for overall health and wellness

Improve immune system health

Help maintain cardiovascular health and support arterial elasticity

Improve gut health and digestive enzyme production

Modulate hormone balance to support vitality and wellness

Help maintain a healthy inflammatory response due to an active lifestyle

Science made us possible, and it forever fuels us

Human energy, vitality, and well-being is our ultimate goal—and the path there is paved by an absolute scientific commitment. We review and test each one of our products every step of the way, from inception to impact. On top of meeting FDA requirements for quality testing, we also enlist a third-party laboratory to test and ensure flawless quality so we can be confident in every batch.

ASEA® Redox Cell Signaling Supplement

Ingredients

Water, sodium chloride

Used to produce active cell signaling molecules through a proprietary patented process.

ASEA® Redox Cell Signaling Supplement is produced in our facility that is FDA-registered and NSF certified and backed by an independent lab to contain active redox signaling molecules.

Directions

Adults, take two ounces once or twice daily. Those between the ages of 12 and 18, drink two ounces once daily.

Caution

Pregnant or nursing women should consult a physician before using.

Simple ingredients that simply work

Living your best life is all about balance

Combines the natural ingredients of salt and water

Absorbing the replenishing molecules you need

Support a healthy inflammatory response after physical activity

Safe and reliable

Without the use of complex chemicals or ingredients you can't pronounce, you get reliable results rooted in safe ingredients.

Proprietary process

We take basics like salt and water and transform them into redox cell signaling molecules that leave you feeling better than you knew was possible.
